KEVIN F. KEMER
Deputy Clerk

Emergency Motion for hearing

Writ of Habeas Corpus
Motion for dismissal of charges &

expungement

(Be accepted an Informa Dauphis January 2023, Oconee County, SC)

Arising under the US Constitution & Georgia's Constitution; US Constitution Amendments: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, and 14th & Georgia's Constitution Article section 1, paragraphs 1-9, 11-15, and 29. I, Christian name Julia Stanley, real name Nagipejutawin, Traditional Native American Way of Life, please ask the courts for an Emergency Motion, Writ of Habeas Corpus, and should the courts find what the State has done to me unlawful, unjust, or similar, Motion for dismissal & expungement

Finding of Facts:

A year ago today, a single mother lived in relative peace & Georgia resident. On May 18th 2022, without legal authority

and on school property, 3 people, one armed with a gun took physical possession of her minor child, LMNS age 7 years old at 3 Watters St. Rome, GA 30061. This fits the Federal Statutes of kidnapping, smuggling & coercion.

The kidnapping occurred after police were used to harass, intimidate, and stalk my son & I.

For instance, on May 9th 2022, I was physically chased & my home occupied for hours without warrant or charge. This was not the only time we were stalked and harassed.

Fraudulent documents & libel were filed, I allude, to cover up the states misdemeanors to my son & I and felonies to us. I was beaten with broken bones May 2022, my car vandalized with about 4k worth of damage, and Rome Police were used to harass & intimidate me not to get my own legal mail. Housing Authority even stole. I allude malicious prosecution on the state as I am currently incarcerated without indictment. This breaks 3 constitutions & it has been over 9 months & the state has not dropped the charges & warrants. I have even been denied petitioning my

government at a judges level. (last summer.
I resorted to a Federal suit, but none of
this should have happened. Its illegal
and Unconstitutional

I desperately need a MRI and being denied
one. This is cruel & unusual Punishment,
and under '1983 and several other things
I shouldn't have erroneous & frivolous
warrants for efforts, I allege, to cover
up the State's crimes

I was arrested, violating SC § 11 Presentment
and Indictment (and others) Feb. 7, 2023
my Writ of habeas Corpus ignored, held
past the 30 days, no Governor's Warrant,
and extradited to Georgia. Without a
trial, I have been here in GA, since March
10, 2023.

All grievances have been exhausted &
many things ignored. The Law Library is
down & the Floyd Co Jail ignores requests
to go to the physical one, which likely
breaks Federal law.

I've asked many times to be tested, as I
don't do drugs, but have been exposed to
diseases like HIV in places like Silverdale
Detention in TN where Floyd Co got a dif-
ferent State, TN, to kidnap me on or around
June 17th, 2022.

I have lost everything & the State continues to ignore their crimes against my son & I, breaking the Constitution & laws. I am being deprived of my life, liberty, and property without the Procedural or Substantive Due Process, breaking the Federal Rules For Criminal Procedure. I am likely permanently disabled from the State hunting me down & depriving me of my rights.

I was a Mormon Sunday School teacher, and single mother working to get out of the projects & was approached for a mortgage. I had to spend my money on a lawyer & per the Unconstitutional Bond Agreement (which fits the Federal Statute of a legitimate ransom letter due to me never being formally charged). I am banned from Floyd Co & many constitutional rights forbidden to me.

On or around September 2022, in a separate ruling in SC, honorable judge Viki Shelgrove stated in a written ruling that "DFACS likely acted outside their jurisdiction" which their "prosecution" (aka libel & fraud) moved on record for dismissal also that month.

The Georgia/Floyd Co obsession with

Fishing Expeditions & Confirmation Bias
Continues.

I would please like to petition a higher
Court to look into these things & Floyd
CO rulings. It seems odd to me the
judges don't understand their jurisdic-
tions or Constitutions. It seems odd to
me that they view police harrasing me
& 96 times in 45 days okay or normal. It
seems odd to me I am spending time
in jail again, for warrants the DA admits
they can't type up.

I alledge these warrants are to silence me
and cover up the State's crimes.

I am a victim & my rights broken... my
body broken. Even forced into an institu-
tion where I was raped so badly
2 pairs of medical panties had blood
all over them. Police did not help nor
investigate even after I reported it.

The lack of Gross Negligence is crim-
inal & I've gotten PTSD from all this
Physically, I'm likely permanently dis-
abled

May I ask & petition to the court for

Relief? Please

Prayer For Relief:

Immediate total expungement of the
frivolous warrants & Temporary Protection
Order signed to prevent Floyd Co from
Stalking & harrassing me & my family or
contacts.

Immediate release from Floyd Co jail
Written apology from Rome Police Dept. &
training implemented regarding Native
American Way of life / "religion", as the pract-
ice of my way of life falls under the US
Constitution's 1st Amendment & practicing
it was hindered & villified.

Full Federal Investigation of Floyd Co juve-
nile court & perhaps Motion for Impeachments
for Floyd Co DA's/judges / other government
officials who participated or were witnessd
to the felonies & misdemeanors of the State &
either aided, gave comfort or allowed it
to continue acting as an accomplice to
the crimes & the defrauding of the US &
Georgia taxpayer.

Punitive & compensatory damages awarded
to me to make me whole & discourage these
unconstitutional crimes to be done.
